

Fluropon

For more than 200 years, Valspar has been a leader in the art and science of coatings that excel in both beauty and function. Our expansive range of superior quality coating systems comes to life through a full palette of colors and surface textures to meet the most demanding environmental conditions and designs.

Fluropon is Valspar's flagship metal coatings product and when you need your design to last, Fluropon will exceed all expectations. Its high performance can be traced to its innovative technology. This premium fluoropolymer system contains 70% Polyvinylidene Fluoride (PVDF) proprietary resins, ceramic pigments and other select inorganic pigments. When applied to metal building components, pre-engineered and architectural panels it provides protection against weathering, aging and pollution that allows your project to endure.

Coil Applied

Fluropon coatings are factory applied to Aluminum, Hot-Dip Galvanized (HDG) or Galvalume substrates over primer, by the coil coating method. In this process, coatings are cleaned and chemically pretreated in accordance to industry standards. This provides excellent adhesion, exact film thickness, flexibility properties and superior post forming performance to enhance the finished products appearance for years to come.

Discover the Power of Color

Valspar believes color has the power to lift moods, brighten spirits and transform a structure.

Fluropon®
Color Guide

Durability

Fluropon® coatings are field proven, high performance exterior finishes. They provide outstanding resistance to ultraviolet rays, exceptional color retention and resistance to chalking and chemical degradation.

Fluropon's performance has been proven in natural exposure tests at Valspar's Test Fence facility for over 40 years, the oldest panel on exposure is from 1968! What you'll see are coatings that are exceeding performance needs and have maintained their beauty over time.

AAMA 620/621 Matters

AAMA 620/621 is the high-performance exterior specification governed by American Architectural Manufacturer Association (AAMA). A coating meeting this rigorous specification and testing would have 70% fluoropolymer and 10 years South Florida exposure, are only a few of the performance characteristics monitored in the quality control reviews. These finishes exhibit outstanding resistance to humidity, color change, chalk, gloss loss and chemicals. Valspar's coatings meet and even surpass these performance requirements.

Sustainability Matters

Green design is less about following a popular trend as it is simply treating our planet with respect. And the coil coating industry is no exception. As an industry leader, Valspar is committed to high performance coatings that lessen the negative impact on our environment but also look beautiful.

- Valspar has over 800 products that meet ENERGY STAR strict requirements
- Fluropon SR (solar reflectance) products can reflect over 70% of the sun to reduce heating impact on buildings
- The factory application process captures and destroys almost all volatile organic content (VOCs) before they escape into the atmosphere

See for yourself how Valspar's dynamic range of colors can enhance your next project.

Fluropon Classic Metallics

Metallic coatings employ metal flakes in the color coat to give the product a special shine.

			
Bright Silver 439Z3610M • SR .54 TE .85 SRI 62	Pewter 439Z2099M • SR .31 TE .86 SRI 31	Weathered Zinc 439R23663M • SR .40 TE .84 SRI 43	Dark Bronze 439Z2106M • SR .12 TE .83 SRI 5
			
Light Bronze 439R21825M • SR .55 TE .86 SRI 64	Aged Copper 439Z2972M • SR .27 TE .83 SRI 25	Copper Penny 439Z637M • SR .49 TE .85 SRI 55	Copper Metallic 439Z1941M • SR .49 TE .85 SRI 55

Fluropon Classic II Mica

This coating system consists of a special primer and a durable color coat containing mica pearlescent flakes, the appearance will be directional in nature.

			
Zinc 439Z618M • SR .55 TE .79 SRI 62	Blue 439Z2083M • SR .29 TE .81 SRI 26	Jade 439Z2090M • SR .26 TE .82 SRI 23	Brick II 439Z2205M • SR .24 TE .87 SRI 23

Color Matters

The colors on this card are only a small sampling of Valspar's full palette of colors, gloss levels and surface textures. Hundreds of additional colors are available from stock. Even then if you do not find your perfect color, allow us to put our advanced color matching technology to work for you for even the most unique and unusual colors.

■ Meets LEED Steep Slope Requirements ◆ Meets ENERGY STAR Requirements

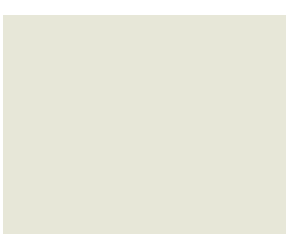

Fluropon

This system provides a powerful chemical bond, superior resistance to ultraviolet radiation resulting in exceptional color retention, resistance to chalking and chemical degradation.
